LEARNARCH:
Teaching Tool for Architecture Learning

The project

LearnArch is a project co-funded by the European Union, within **Erasmus+**, the EU's programme to support education, training, youth and sport in Europe.

The project aims to create an engaging and interactive learning environment by **developing a tool** that will help adult trainers and educators in the field of Architecture to enhance their training routines and foster a deeper **understanding of architectural concepts** for their learners.

LearnArch is a partnership created between organisations from 3 countries: Romania, Greece and Portugal.

The Consortium comprises three organisations with backgrounds in innovation, education, architecture and board games: **NEA (Asociatia North Eastern Architect)**, **Roman - Romania;** Dracon Rules Design Studio, Karditsa - Greece, **COFAC - University Lusofona**, Lisbon - Portugal.

Kick off meeting

The Kick-off meeting took place in Iasi, Romania, between 29-30th of March 2023, where the consortium met to move forward with the initiation and proper management of the project.

The Transnational Project Meeting (TPM) – Kick-off meeting for the LearnArch project marked a pivotal beginning to a journey aimed at reshaping architectural education through innovative learning tools, setting the stage for collaboration, planning, and a shared vision for the project's future.
